

Features

EZWrite 5 Collaboration Tool

Cloud features allow for cross-platform, device and board-to-board connection so anyone from your team can join in. All annotations made can be saved and reopened at a later time from the cloud. The Floating Toolbar allows quick access to frequently used tools such as Whiteboard, Annotation Tools and Video Recording.

InstaShare Wireless Collaboration Solution

Integrated InstaShare app enables easy wireless presentation and collaboration by screen mirroring. Launching the host app and downloading the client app onto an Android, iOS, Mac or Windows device, up to 16 participants can instantly stream content like presentations and full HD videos smoothly. InstaShare can have splitscreen for up to 4 participants.

Account Management System (AMS)

AMS allows users to directly manage their personal settings or cloud storage space and can be easily and securely accessed using NFC technology.

Intuitive Design

The smart design of RP6501K incorporates a highly customized user interface with easy to access design for BenQ Launcher, screen functions and the BenQ keyboard. It comes with the new remote with built-in software pointer and spotlight. It also features a front pen tray, front IO panel and chamber speakers.

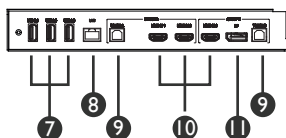

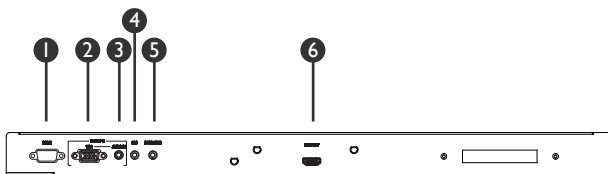

Healthier Environment

RP6501K provides Smart Eye-Care technology with Flicker-Free performance, Low Blue Light emission and an Anti-Glare screen preventing eyestrain and fatigue. The Germ-Resistant Screen is empowered by a multilayer coating of the non-toxic, enduring nano ionic silver agent that kills most germs accumulating on screen surfaces. The Air-Quality sensor helps to monitor CO2 concentration level in the meeting room helping the host to keep it at an ideal level.

Device Management Solution (DMS)

Device Management Solution is a platform enable ITS remotely manage BenQ screens, the manager can check H/W status, change settings, manage F/W upgrades and APP installation/uninstallation, all remotely as long as BenQ screens and the device manager users are all connected to Internet, no need to be in front of the screen and tweak the screen one after one, with DMS Cloud all these tasks can be done with minimal efforts and maximal efficiency.
