

## MV - SERIES

2026

### Teach. Connect. Inspire.

Turn your meeting room or classroom into a collaborative powerhouse with the Smart IP World (SIPW) Interactive Displays - engineered to boost productivity and foster engagement in corporate and education environments.

#### 4K (UHD) Display

A large, touch-enabled screen delivering crisp 3840x2160 resolution for collaborative environments, replacing older projector systems with seamless, lag-free writing & built-in software.

#### Zero Bonding Technology

The touch sensor layer and the display panel are bonded directly without an air gap, creating a seamless surface that eliminates parallax, reduces glare & improves touch accuracy.

### Specifications

SIPW provides high end specifications with a combination of superior hardware, advanced software, and professional-grade features.
